**Location:**

Dallastown Borough Office

175 East Broad Street

Dallastown, PA 17313-1839

**About the Class:**

Our nation's most valuable resource is water. This course is designed to instruct water company personnel in proper line locating techniques through classroom and equipment demo. The idea of line locating is to prevent injury from excavating accidents thus promoting operator health and safety. Line location also prevents property damage to both the utility line and other adjoining utility lines, thus reducing cost and down production time to the water utility.
